Volume 1 Issue 2

June 4, 1997

Charter Memberships

Charter memberships are still available but time is running short. Your opportunity to partake in the prestige of charter membership will soon be lost. These memberships are still a steal at only \$10 or sign the whole family up for a mere \$12.

SWCS Logo Update

Bob Zmija took the floor to update the members on the progress of the logo development. Bob has been working with different ideas that have been submitted and has come up with a finalized design which was approved in a vote by the members. We can look forward to seeing the logo on membership cards and maybe even on a coin. While different ideas had been submitted for the logo, Bob has been using his knowledge of dies to filter out ideas that would prove too costly to reproduce on a coin. While our logo would grace one side of the coin the reverse may feature a train from the Railway Museum. Members are asked to see Bob if they would be interested in purchasing these coins so that he can go ahead with having dies produced.

Auction

The SWCS hosted its first auction at the May meeting. Tony Zmija did a fine job in his first stab at auctioning while Scott Douglas auctioned the last half of the lots. While it was the first auction there

were no opening jitters. Though there were some bargains as several lots sold for reserve value there was also some spirited bidding. Several members engaged in a bidding war for a '92 PL set and when the dust settled the coin set had realized more than the estimated value.

A thank you goes out to Scott Douglas for contributing his expertise in coordinating our auctions. Members interested in submitting lots to the auction should bring them to Scott who will grade and assign their estimated value. The commission is only \$.25 for lots selling at less than \$20 and \$1 for lots selling over \$20. So why not clear out some of those doubles.

The SWCS promises another interesting auction as a broad range of coins grace this month's auction list. There is something for everyone as the lots include Canadian decimal, tokens and world coins. Watch for the high grade large cents and '46 dollar.

For Your Daybook

May's Big Screen Feature Presentation

In keeping with its promise to provide an educational experience the SWCS presents the video "The Bank of Canada, Not Your Ordinary Bank." The video illustrated the development of the bank and its role in our country. It showed that the bank is part of our daily lives. Its importance comes with such things as managing debt, monetary policy and supplying banks with currency. In fact, the Bank of Canada is the sole distributor of paper money, printing one billion notes a year. Other interesting points that caught your narrator's attention, were the use of recycle denim in printing bills and the banks response to the question "why don't they print more money?"

June's Feature Presentation

This months the SWCS is proud to present a CNA slide show entitled "Steam Locomotives on Canadian Medals and Trade Dollars." The Presentation promises to stir some distant memories of old-fashioned locomotives. Using examples from their own award winning collections, Norm and Noreen Howcroft take us on a photographic journey through historic railroad events all depicted on commemorative medals. We will travel number of cities, organizations, and societies which have featured trains on their medals. We would like to thank the CNA in advance for

providing us with this presentation.
